

Excalibur ADHD Association

There is no cure but
there is help

Family School POP 6-12 year olds

"I found the Family School POP program to be very insightful, and interesting, I also liked the fact that you get an assortment of different handouts with it to be able pick and choose from pertaining to what kind of issue at the time you may be dealing with. Any kind of "parenting" course can be helpful, but a specific one that deals with ADHD is going to be an added plus to any adult out there parent or not."

Sandra F.
Youth Care Worker

"I am very pleased that I came across the advertisement for this course. I feel more confident that I can better handle raising my son with ADHD. I will refer to the book and all the emailed articles. I think this is a very valuable course for parents raising children (regardless of whether they have ADHD)."

Susan S.
